

SOLJANS ESTATE

CONTRACT BOTTLING SERVICES

PROVIDING HIGH QUALITY CONTRACT BOTTLING SERVICES FOR OVER 40 YEARS

MISSION STATEMENT

Soljans Estate is the most experienced contract bottling facility in New Zealand. We pride ourselves in offering personal attention. As a family owned and run business we take the same high level of care with other companies wines as we do with our own and aim to satisfy every customer we take on.

STILL WINE

We have a wide range of equipment and are able to fill bottles with volumes of 375ml to 1.5lt magnums, which we can also seal with either screw caps or corks.

Bottling can be done clean skin so you can label and pack the product when you wish or we can bottle label and pack here on site in one operation.

SPARKLING WINE

We are Sparkling Wine specialists and have been offering this service to other wineries for over 40 years. While sparkling wines are most commonly bottled in 750ml bottles, we are also equipt to fill 200ml Piccolos to 1.5lt Magnums.

We can seal with Natural Cork, Zorks, Plastic Stoppers, Screw Caps or Crown Seals, dependent on the type of bottle used. Once again this can be done clean skin or capsuled, labeled, and packed onto pallets on site.

MÉTHODE TRADITIONNELLE

Along with making our own Méthode Traditionnelle, Soljans is also pleased to be able to offer Méthode contract services to other New Zealand wineries. It is another specialist area and one we have built a lot of knowledge in over these years. We are equipt for Tirage filling, riddling and disgorging, along with the ability to seal with Natural Corks, Zorks or Crown Seals. This as well can be done clean skin or capsuled labeled and packed onto pallets on site.

Please feel free to contact us for further information regarding quotes or general enquires.

- Still Wine Bottling
- Sparkling Wine Bottling
- Méthode Traditionnelle
- Quality Control
- Labelling
- Packaging
- Capsuling

QUALITY CONTROL

The work we do is world class and has attention to detail at every step. We work to the instructions given to us in the bottling and labeling forms and ensure we meet the expectations. Production and Quality control is under the direction of our own winemaker, Jim Corkin, who is experienced and fastidious in following the procedure and standards set.

ACCREDITATIONS

Having our systems and procedure certified by a third party is an important part of doing contract work. This makes sure we meet food safety standards and are looking after our environment. We therefore have both the WSMP and SWNZ certificates and work to these guidelines.
